## Secure Snow

### Insurance benefits – explained in a nutshell

Strap on your skis, hit the slopes and enjoy yourself. We'll take care of the rest. Spend carefree hours on the slopes this winter. Every time you go skiing in Switzerland or neighbouring countries, your skis, snowboard or cross-country skis are fully insured against breakage, damage and theft with Allianz insurance.

#### Breakage insurance

Breakage insurance covers the cost of repairing or replacing sports equipment in the event of breakage or damage during use by the insured person, as well as during direct transport from the home to the ski resort and back.

#### Theft insurance

The theft insurance reimburses the replacement costs for the sports equipment in the event of loss due to theft during use by the insured person and on the direct route from the home to the ski resort and back.
