

Checklist for your travel preparation

Safe and happy holidays.

Travel documents

- Check if your passport and identity card are valid.
- Take a copy of travel documents. An important travel tip for families: If you travel with children, take a current photo of each child with you. If possible, save these images to your smartphone.
- Clarify the need for a visa in time and apply for it if necessary.

Insurance cover and safety precautions

- Take out travel insurance that meets your personal needs.
- When travelling with your own car or with a rental car, clarify the insurance coverage in advance (comprehensive insurance and if necessary, rental car CDW deductible exclusion).
- Download the Itineris app of the Federal Department of Foreign Affairs (FDFA) and enter your personal details. Download the app at: www.allianz-assistance.ch/itineris.
- Inform family members of your itinerary and contact details.
- Note down personal emergency contacts and internationally valid helpline numbers and carry them with you on your journey.

Health matters

- Don't forget a first-aid kit and personal medication. Make sure that you take all medication in its original packaging for entry controls.
- Check in time whether you require any additional vaccinations.

Communication and payment methods

- Check your mobile phone contract with regard to roaming.
- Take cash in the foreign currency and check whether you can make payments with your credit/debit card.

Travel luggage

- Pack seasonal and practical clothing and footwear.
- Take electronic devices with the corresponding chargers.
- Take the universal power adapter with you to ensure compatibility with the sockets in your travel destination.
- Use luggage tags and note your working address instead of your home address for security reasons. If possible, lock the case and keep the key in your hand luggage.
- Observe the airline's luggage limits and customs regulations.

How can we help?

AWP P&C S.A., Saint-Ouen (Paris), Wallisellen branch (Switzerland)
